### **Who Should Be Allowed to Go to the World Youth Chess Championships ?**

Currently, we have the national CYCC to determine Canada's representatives to the World Youth Chess Championships. This tournament is generally held immediately prior to, and in the same location as, the Canadian Open each summer. The 2003 CYCC was held in Kapuskasing, Ontario. The 2004 CYCC has also been awarded to Kapuskasing. Under the CFC regulation, the first place finisher has his/her registration and transportation paid by the CFC. The second and third place finishers ( including ties ) can attend the WYCC at their own expense.

But an issue has long been simmering about this arrangement, and it is now bubbling to the surface. We have not always sent our best team, because high rated players who decide not to go to the CYCC, forfeit any right to be included on the team. It is pointed out that Canada is a large country, and sometimes airfare, accommodations and meals, registration, etc., make it too expensive for some of our top youth players to attend the CYCC. So it has been argued that the rules should be changed so that the CYCC is not the ONLY way to qualify to be on the team. An alternate of some type is put forward that will allow representatives with high ratings to be chosen off the section rating list.

The argument against this is often that it will weaken the quality of the CYCC, if top-ranked youth players skip the tournament, intending to use their ratings to qualify. Though this may be true, it should be noted that if a player wants a free trip to the WYCC, s/he will have to attend the tournament, and come first.

The matter has now been formally raised in the recent CFC Governors' Letter # 3. Governors Stephen Wright/ Lyle Craver submitted a motion to include qualification by rating list. Specifically they proposed :

“ Any player rated as high or higher than the lowest rated qualifier from the CYCC, taken from the most recently published rating list prior to the CYCC, may attend the WYCC at his or her own expense. “

Unfortunately, the CFC President took the position that as far as he was aware, all countries qualified for FIDE championships by having a national championship. He therefore ruled the motion out of order. This is truly unfortunate. In our view, he has confused procedure with arguments on the substance of the motion. He is arguing against the motion, not ruling on it as procedurally correct. There have been some criticisms that the motion was incomplete, and needed to amend some other parts of the CFC Handbook section in order to be consistent. But that could have been taken care of by simple amendment of the motion. This is a substantive question on which the Governors should have the opportunity to pass judgment.

If possible, a motion should be brought challenging the President's ruling on the motion, trying to have it overturned, and the motion brought back for discussion and voting.
