Friends Play Chess !

We tournament chess players love “ competition “ ! But chess is first and foremost “ social “. It is a way for family, friends and acquaintances to enjoyably pass time together.

My wife and I have passed many happy hours playing the “ Royal Game “, even though she is just a novice. Over the holidays, my daughter and son-in-law and I played a number of enjoyable games together before the blazing fireplace in the evening..

SCC member, and SCC executive officer-at-large, Martin Maister, presented me with a great chess story about “ friendly “ chess (recognize the phrase from our SCC motto ? - . [“ FRIENDLY Chess Since 1960 ”](#)). Martin wrote that he has “a friend to play with. He is cute, though not as cute as the opponent in this picture (on prior page). That friend would be my 6 year old nephew who is nuts about the game. He knows virtually all the rules now. “

His “ friendly chess “ story is:

“ I once nearly laughed my head off. Kids learn by observation. I once had him a friendly game. I queened a pawn. He explained to me that turning that pawn into a queen is illegal. I said to him "really? Then you please tell me the rule for what happens when a pawn reaches the end of the board."

In all seriousness, he said to me that the pawn converts into an upside-down rook!!!! “

Another Scarborough tip on friendly chess – former SCC Club Champion, Erwin Casareno wrote:

“ There are always players that play blitz in the Tim Hortons located at Ellesmere + Neilson. It is \$2 per game. “

I believe this is a favourite haunt of the Filipino community in Scarborough..

Do you have a “ friendly chess “ story you’d like to share? Send it on to us, and we’ll pass it on to our readers !

Canadian GM Mark Bluvshstein Ties for First – Groningen, Netherlands

This swiss had 50 players, and took place in late December, 2010. Mark

tied for first, but Van Kampen took the title on tie-break. Here were the first place finishers.

Nr	Naam	Score	Federatie	M/V	Rating	TPR
1	GM Bojkov, Dejan	6.5	BUL	M	2542	2631
2	IM Nyzhnyk, Ilya	6.5	UKR	M	2535	2671
3	GM Bluvshstein, Mark	6.5	CAN	M	2587	2606
4	IM Brandenburg, Daan	6.5	NED	M	2515	2639
5	GM Ernst, Sipke	6.5	NED	M	2590	2628
6	IM Van Kampen, Robin	6.5	NED	M	2454	2627

Nyzhnyk gained his last GM norm, and he is now the youngest GM in the world.

Mark summarized his feelings about this tournament in his excellent blog (<http://markbluvshstein.wordpress.com/>).

“ After having some time to reflect and analyze my games, I noticed that my play was full of diversity. My wins were all different in the event, from a positional win in the third round to a razor sharp win in the fourth, to an endgame grind in the fifth, to good opening preparation in the eighth. I was able to show good skill in all parts of the game in this tournament. I hope I will be able to show such universality in my future tournaments as well, because it is impossible to have success in chess unless you play what the position asks for, instead of playing for a number of personal strengths. It’s also interesting to note that I did not have a worse position in any of my games after the first round! “

Top 3 FIDE Rankings : 1971-2011

(from Natalia Pogonina Blog)

Chess fans tend to remember World Champions and runner-ups much better than other top grandmasters. However, since FIDE rating lists have appeared in 1971, many people have been paying serious attention to the rating rankings of the players. So, do you know the GMs who made it to top-3 in 1971-2011?

Here is a complete list:

#1: Fischer, Karpov, Kasparov, Kramnik, Topalov, Anand, Carlsen

#2: Spassky, Korchnoi, Tal, Portisch, Timman, Ivanchuk, Shirov, Morozevich

#3: Petrosian, Polugaevsky, Mecking, Huebner, Ljuboevic, Beliavsky, Yusupov, Short, Gelfand, Salov, Aronian

Relatively few personalities for a 40-year time span, right?

Here is Natalia's list for Women's Ratings:

#1: Gaprindashvili, Chiburdanidze, Cramling, Alexandria, Polgar Susan, Polgar Judit

#2: Kushnir, Ioseliani, Xie, Galliamova, Stefanova, Koneru

53rd Reggio Emilia 2010-11, Italy

This was a relatively strong 10-player round robin, played Tue 28th Dec 2010 - Thu 6th Jan 2011. The average rating was 2695.

It was won by Vugar Gashimov (Azerbaijan)

on tie-break over Francisco Vallejo Pons (Spain). He won the tie-break since he had defeated him in their individual encounter. Gashimov was down a P for the latter part of the game, but had a passed P on the 2nd rank. Vallejo had to take his K out of position to win it, and then Gashimov was able to clean up in the ending. Here is their game (Annotations by Bob Armstrong, using Fritz):

2011 Canadian Open – Billets Sought for Foreign GM's

David Cohen, CO organizer, is looking for billets for GMs during the 2011 Canadian Open. There are GM's from all over the world who want to come to Canada to the tournament - many countries, many languages. Half of David's problem is their airfare to Canada, but the other half is their accommodation.

If free accommodation can be arranged for them as one of the “conditions” for their participation, it might go a long way toward encouraging them to attend. The accommodation commitment would be only for the sleeping arrangements, and pointing them to the playing site at Harbour Castle on the waterfront. Any extras are up to the host, e.g., airport pick-up, rides to tournament, meals, etc..

If you can help out, contact David : davidcohen7076400@yahoo.com .

Games were collected each week (the handing in of the white score sheet is mandatory, and members keep the yellow carbon sheet), but no games of this tournament could be sent out to members in database format, nor published, until the tournament had concluded (due to the policy adopted at the September 2009-10 SCC AGM concerning, score sheets, the games database, and the newsletter. If you are interested in finding out about this policy, just e-mail me at bobarm@sympatico.ca and I will forward it to you.)

I and SCC member Ken Kurkowski volunteer to enter the SCC games each week into the tournament database (it does not contain the games we will be publishing in our coverage of the tournament in the newsletter – these are the best games, and they have been held back for the newsletter). I analyze or partly analyze a number of the games, and Ken does a few also from time to time.

.Here are some games from rounds 5 & 6.

In Rd. 5 in the 2000+ section, junior Michael Song

Michael on right front

defeated former club champion, Erwin Casareno. I almost wanted to call it an upset, but then I realized Michael has progressed so fast recently, he is now higher rated than Erwin ! Erwin wrongly decided to sac a minor for 2 P's, rather than just go down a P. Then he fell into a mate. Here is the game (Annotations by Bob Armstrong, using Fritz):

Then Lui outplayed him in the time pressure and got a mate. This left Lui with an undefeated record, and the sole lead. Here is the game (Annotations by Bob Armstrong, using Fritz):

On top board in the U 2000 section, leader Lui Morra got the advantage against junior Juliaan Posaratnanathan and went up a P. But then he missed a skewer, by which he lost the exchange, but then had a P compensation. The game was equal and went into time trouble where Lui won a second P, and got a "winning" advantage. But he had to agree to a draw, given the time pressure. Here is the game (Annotations by Bob Armstrong, using Fritz):

SCC Jack Frost Swiss – First Tournament of 2011 !

The first swiss of the New Year began on Thursday, January 6, 2011.- the Jack Frost Swiss. It is 7 rounds: January 6, 13, 20, 27, February 3, 10, 17, 2011.

The registration for this tournament is:

2000+ Section – 21

U 2000 Section – 32

U 1700 Section – 38

(NOTE: members have the right to play up a section if within 100 points of the higher section rating floor)

This total of 91 is right in line with the attendance in our first two tournaments of this season, in 2010 (Howard Ridout – 91 players; Falling Leaves Swiss – 92 players). Also, we have found that we often pick up a number of new and returning players as the tournament progresses, so the registration is expected to rise somewhat. Also, the new rule for qualification for the top round-robin section of the upcoming SCC Club Championship is that 10 SCC games must have been played since Sept. 1, 2010 – so a few top players may still show up to make sure they make the activity cut-off.

After 2 rounds, the following have 2 pts.:

2000+ section – Expert Alex Ferreira; Expert Dave Southam

U 2000 section – Jim Paterson; Scott Huston; Peter Xie

U 1700 section – Junior Derick Aghamalian; Junior Eric Song; Carl Veacock

Games are collected each week (the white score sheet is handed in; the player gets the yellow carbon) – this is mandatory on all members. But there will be no games of this tournament sent out to members in database format, nor published, until the tournament has concluded (due to the SCC policy, adopted at the September 2009-10 SCC AGM, concerning score sheets, the games database, and the newsletter. If anyone is interested in finding out about this policy, just e-mail me at bobarm@sympatico.ca and I will forward to you the policy.)

SCC member Ken Kurkowski and I, as volunteers, enter the SCC games each week into the tournament database, which, as was said, will be sent out to members when the tournament is concluded. I analyze or partly analyze a substantial number of the games, and, from time to time, Ken also analyzes a few games for the newsletter and/or the database.
