MIKHAIL TAL DIES AT 55

(Adapted from New York Times)

Mikhail Tal, a Latvian Grandmaster who held the World Chess Championship in 1960-61 and was one of the games most popular and exciting players, died at the age of 55 in Moscow after a long illness.

Known in chess circles as a swashbuckling attacker who reveled in daring sacrifices and all-but-unfathomable complications over the board. Tal won the World Championship in 1960 at the age of 23 - becoming the youngest person to hold the title in this century to that point - by defeating Mikhail Botvinnik, who had been the champion since 1948. Although Tal lost the Championship in a return match with Botvinnik a year later and never became a title challenger again, he continued to play at world-class levels of competition and steadily won tournament and brilliancy prizes in an illustrious chess career.

While his slashing style earned him the sobriquet "Tal the Terrible", friends called him Misha, and he was known in the chess fraternity as one of the game's most popular and amiable figures: a gentle, witty man who seemed totally immersed in chess and displayed none of the egotism that is common among top-level contenders. Because of his nearly lifelong struggle with liver and kidney ailments, friends recalled, it was not unusual for Tal to be hospitalized during tournaments. But he was so keen to continue that he often returned to the action and occasionally played tournament or match games at his hospital bed, as he did once in the early 1960's with Bobby Fischer who later became World Champion.

At the board, he often stared fixedly at opponents, a habit that disconcerted many and even led some to accuse him of trying to hypnotize them. But, experts said, it was his capacity to envision combinations and deeply analyze complex variations - not hypnosis - that made him formidable over the board.

"He had an insatiable appetite for the game.", Robert Byrne and American grandmaster, said of Tal. "It sounds trite, but few love the game as much as he did. You could just see it. Some players consider it labour. This man loved chess."

OLYMPIAD REPORT

The 30th Chess Olympiad was staged in Manila from June 7-26. While Dubai '86 may have rivalled the splendor of the event, but the calibre of competition was unequalled in history. Our men's team was closing in on a top 30 finish until they collapsed in the final round. Their final score of (28.5-27.5) left them sharing places 48-54.

TOURNAMENT DIRECTORS

Please remember to put the NAME and DATES of your tournament on the crosstable so that it will be rated in its correct chronological order. Also make sure that the correct CFC number of each participant is given on the crosstable, and that each participant is a current CFC member! We need your help to maintain the accuracy and integrity of the CFC rating system.

You will be happy to know that cross-tables are now free from the business office. Please take advantage of this service and make life easier for both of us. When submitting your report be sure to add up each player's score and include it on the cross-table. This can be done quickly and may help you avoid errors in your report. A brief report should accompany each crosstable. Please include the names of the TD, organizer and person reporting so that we can acknowledge your efforts on behalf of the CFC and chess in general.

If your event had more than one section please report these separately, i.e. each section should have its own crosstable. This doesn't cost you any extra money in rating fees and will ensure your event is correctly rated and reported.

Please note that rating fees and membership fees are NOT SUBJECT TO THE GST
